>>> The Colonial Pipeline break at the Nashville International Airport is changing from emergency response to consequence management. Other than oil potentially weeping into McCrory Creek, no off-Site impacts remain. The intercept trenches are deep, long and effective. Steve, Jordan, and START resources demobed, as did the Unified Command and ICS Structure. Colonial response resources remain. The Site was buttoned down for the storm - Steve and one START will return Monday and map out a longer Response posture with recovery objectives and timelines.
